(54) Title: VALIDATION OF CONSUMABLES

(57) Abstract: A printing apparatus using a consumable associated with an identifier, the apparatus comprising, printing means for printing an image onto an image receiving substrate; reading means for reading the identifier; storage means for holding a list of any previously used identifiers associated with empty consumables; and a processor arranged to compare the identifier read by the reading means with the list of any previously used identifiers and to generate an invalid indication if there is a match.
